

Jordan Crawford: Please submit any questions you have for Dr. Moreau about Qualitative Analysis in Rapid Turn Around Projects into our chat and we will discuss during the live Q&A portion

Tina Studts: i'm having trouble with the sound but is it just me?

margo harrison: I can hear fine, sorry

Patrick Hosokawa: It's been going in and out

Bethany Kwan: There have been a few blips, yes

Bethany Kwan: I'm not sure why, happened with Matt this morning, too

LearningTimes: Hi Everyone - audio drop outs may be due to bandwidth

LearningTimes: I haven't noticed any drops on this end, but again buffering on your end is still possible.

LearningTimes: If you have a lot of windows open that add to buffering too.

Laura Anthony: Can listeners please mute?

Tina Studts: it was an iPhone/airpods problem - thanks

Kiyomi Daoud (she/her): Will these slides be made available? This is such a helpful guide!

Alejandra: I agree! would love to be able to review the slides in the future.

Jordan Crawford: PDF slides will be available alongside this recording. Dr. Moreau also has these matrices available in her handout [https://coprhcon.learningtimesevents.org/wp-content/uploads/2020/07/Moreau\\_Handout.pdf](https://coprhcon.learningtimesevents.org/wp-content/uploads/2020/07/Moreau_Handout.pdf)

Cole Hooley: Could Dr. Moreau share different uses of the "other" section of the template? (would love to hear some additional examples).

Anowara Begum: how much time do you suggest to spend on average to summarize an hour long interview without going into too much details?

Adrienne Johnson: can you speak to the publishing of data using these methods? What might be some coding examples that would need to be done to publish after doing this type of analysis

Angela Keniston: Would you have an example you could share of a completed matrix?

---

**DISCLAIMER:** This is an unedited chat transcript of a Colorado Pragmatic Research in Health Conference (COPRH Con) held on August 11<sup>th</sup>-12<sup>th</sup> 2020 and is presented offered as a resource "as is." The content of this transcript is uncorrected and has not been proof read. Opinions and statements included in the transcript are solely those of the individual person(s), presenter(s) or participant(s) at the meeting, and are not necessarily adopted, endorsed or verified as accurate by ACCORDS or LearningTimes.

Cole Hooley: Wonderful, thanks!

Anowara Begum: This is very helpful, thank you!

Adrienne Johnson: Thanks so much!

Jessica Moreau: Zuchowski Medical Care 2017 Veterans

Courtney Luecking: Could you speak to your experience applying these methods before you have transcripts (e.g., field notes) and perhaps what might need to be done differently?

Angela Keniston: Thank you! That was helpful!

Courtney Luecking: Thank you!

Borsika Rabin: Would it be appropriate to use rapid methods as the only analysis for the data?

Cole Hooley: Are their articles that describe this method?

Cole Hooley: Thanks!

Elva Arredondo: thank you! This was great.

Cole Hooley: Yes :)

Cole Hooley: Similarly, would it be appropriate to use this approach if you are solo (no other team members)?

Borsika Rabin: Thank you!!

Jordan Crawford: Thanks for all of your questions! This is the end of slot #1; you may check out other sessions on EHR data, Mixed Methods, and Behavioral measures!

Cole Hooley: Gotcha, thanks!

Cole Hooley: This have been SO awesome, thanks!

Emma Gilchrist: Thank you, Dr. Moreau!

Adrienne Johnson: Yes, thank you!
