Implementation & Conduct of Pragmatic Research: Ensuring Rigor & Relevance in Practice

Andrea Svoboda: Beginner

Katy Trinkley: minority patients

Jess Indresano (they/them): Patients

Holly Storkel: Policy makers

Margaret Crane: Funders

Victrine: patients' families

Rachel Steinberg: elders

Vanessa Merker: Patients from minoritized communities

Margaret Crane: They have different priorities than I do

Emily Godfrey: Diverse perspectives takes more time, get less done

Marie Masotya: different commitments

Rachel Steinberg: Power dynamics can be hard to acknowledge and effectively work through (researchers often have power over community members)

Marie Masotya: levels of trust

Katy Trinkley: we speak different "languages" - different backgrounds and expertise

Jess Indresano (they/them): power differentials within the groups your working with can be hard to navigate

Jess Indresano (they/them): you're*

Marie Masotya: I really love these different strategies. Do you combine members of different stakeholder groups in these strategies or have separate workgroups for different stakeholders? Do you find some strategies work better for certain types of stakeholders?

Emily Godfrey: Our university almost always asks for SSN, which can be a problem for community members or patients on disability. Does anyone have policies for incentivizing community/patient partners as a model for other universities to consider?

Jess Indresano (they/them): Will the slides be available on the website later? Right now, what shows up doesn't include these slides. (I could also be looking in the wrong spot.)

Katie Klossner: Yes. Slides will be available. There is still time for questions, but thank you everyone for attending Day One of COPRH Con 2021. Look forward to seeing everyone tomorrow!

Jess Indresano (they/them): Thanks!

Monica Perez Jolles: mjolles@usc.edu

Cole Hooley: Thanks!!

Katie Klossner: yes - up to you
