

Kelli Scott (she/her): Just wanted to say hi :)

Patricia Heyn, PhD, FGSA, FACRM: Hello

Heather Gilmartin: implementation adoption of a relational playbook for procedural teams

Amy Huebschmann (she/her): Reach

Emily Godfrey MD, MPH (she/her): Reach

Katie Magid (she/her/hers): fidelity

Cindy K Blair: I'm measuring acceptability, appropriateness, & feasibility of a pilot study

Jeremy Graber: feasibility and acceptability of a new clinical decision support tool

Nicole Wagner (she/her/hers): implementation cost

Danielle Ostendorf: Feasibility and acceptability

Erika Crable (she/her): Acceptability and fidelity

Jess Haughton: I'm measuring implementation fidelity of a CHW-led primary care program

Rachael Kenney (she): Adoption of VA telehealth pods

Heather MacLeod: Adoption of assessment tool with both community and hospital based clinicians

Brittany Rudd: Implementation fidelity

Jess Indresano (they/them): implementation facilitator time & cost of those services

Sarah Linke: Implementation of program components

Cindy K Blair: mostly latent variables; will be measuring mostly with qualitative data

Erika Crable (she/her): Acceptability = self-report. Fidelity = challenges with self-report

Chelsey Anderson: acceptability of a device seems most appropriate as a self-report

Heather Gilmartin: perceptions = self-report

Jess Haughton: Implementation climate

Amy Huebschmann (she/her): Reach - related to individual factors - related to perceptions of acceptability/feasibility for the eligible individuals

DISCLAIMER: This is an unedited chat transcript of a Colorado Pragmatic Research in Health Conference (COPRH Con) held on May 24th-26th 2021 and is presented offered as a resource *"as is."* The content of this transcript is uncorrected and has not been proof read. Opinions and statements included in the transcript are solely those of the individual person(s), presenter(s) or participant(s) at the meeting, and are not necessarily adopted, endorsed or verified as accurate by ACCORDS or LearningTimes.

Brittany Rudd: Beliefs

Erika Crable (she/her): intervention characteristics- evidence strength

Erika Crable (she/her): tension for change

Heather Gilmartin: Can you talk about how you sell observational measurement to participants and stakeholders?

Erika Crable (she/her): Can you share a bit more about the difference between latent and manifest measures? Can a common measurement (e.g. acceptability) be measured as a latent and as a manifest variable?

Danielle Ostendorf: Thank you Cara!!

Katie Magid (she/her/hers): thank you!

Erika Crable (she/her): Thank you!

Amy Huebschmann (she/her): Thank you!!
