Borsika Rabin (she/her): Edward Michie at the VA is going to advertise a CNA training for this Summer soon.

Jodi Holtrop: @Daniel - I would first look for examples of how it works in the literature. There are training programs, however, they tend to be pretty in-depth. I would recommend a consultant. Ed Miech is one such person. I have worked with Claude Rubinson at U Texas at Houston on the QCA work I have done.

Jodi Holtrop: Deb Cragun has written a chapter in a recent D&I book (Birken is one of the co-editors - having trouble remembering the name right now - can find it).

Mustafa Ozkaynak: No question, I just revised Charles Darwin's famous quote. It is not the most effective of the strategies that supports the implementation, nor the most efficient that supports the implementation. It is the one that is most adaptable to the target setting.

Borsika Rabin (she/her): @Mustafa - I love this!! We need to save this.

Borsika Rabin (she/her): Please share on Twitter if you are active there! Thank you!!

Mustafa Ozkaynak: @Borsika I just did :)

Natalie - Learning Times: Reminder to head to the main auditorium for the closing address following this session

Erin Kenzie: it's a great question !

Daniel Shattuck (he/him/his): Thank you so much!
